

# DERIC WORKSHOP FLYER

---

A Call to NYS Driver Ed Teachers!

Participate in the  
NYSDTSEA DERIC Curriculum Workshop  
...and receive a \$100 incentive!

Attend the afternoon  
ADTSEA "How To Drive" Workshop  
at no charge.  
This will provide teachers with a great  
value and savings.

**July 20th, 2024**  
**The Crowne Plaza - Desmond Hotel Room, Albany, NY**

The NYS Driver Education Research and Innovation Center (DERIC), in cooperation with NYSDTSEA, has been awarded a grant to review and enhance the NYS driver education materials and work with driver education teachers to keep them up to date and informed on our latest materials.

A \$100 incentive is being offered for participation in this workshop. Teachers will have an opportunity to network and receive new materials that, when added to the existing curriculum, can provide current data and suggestions to strengthen their classroom and behind the wheel presentations. Limited seating so don't delay in signing up.

Additionally, the National ADTSEA Conference, also being held that same week in Albany and has an afternoon workshop that same day. We have been invited to extend our day and attend their workshop. Anyone who wants to take advantage of this afternoon session may do so at no cost, but you must commit to attend, as this too has limited seating. A NYSDTSEA vendor grant will be paying all the registration fees for this afternoon session. (\$50 value)

**See the workshop agendas and sign up information below:**

The Driver Education Research and Innovation Center (DERIC) project provides free, standardized driver education resources to help reduce crashes and produce safer teen drivers in New York State. The DERIC curriculum was developed by teen driving safety, teen behavior, driver education, and curriculum development experts through a partnership between the New York State Departments of Health, Motor Vehicles, and Education, as well as the Governor's Traffic Safety Committee.

## **What should I bring to the DERIC Workshop?**

- Please bring textbook samples of what you are using in your classroom and/or Behind The Wheel (BTW) lessons.
- Please bring a laptop if you have access to one.
- Take a few pictures of traffic situations and/or locations in your area that depict unique signs, traffic density, generic pictures of students in the classroom or in behind the wheel activities (without showing faces). We are trying to gather a statewide driver ed photo gallery.
- A sample of scrapbooks, posters or other projects that your students have created or participated in as we can display some of these at our booth in July at the National Conference in Albany in July. email or Google drive via a personal Gmail account.
